PROFESSIONAL SUMMARY

Full Stack Developer with experience in React, Next.js, TypeScript and Node.js, focused on building high-performance interfaces and robust backend integrations. I have delivered production-ready operational tools with measurable impact on business teams. I integrate AI into my daily workflow to accelerate development and improve delivery quality.

EXPERIENCE

AUTOSISTEMAS DE TORREÓN

Tepic, Nayarit

Full Stack Developer

August 2024 - February 2026

- Developed full stack solutions with **React** on the frontend and **Node.js** + **SQL Server** on the backend, including APIs, business logic, and dashboards used daily by operations teams.
- Automated Excel-to-database workflows using Node.js scripts, saving **5–7 hours per week** for the operations team.
- Reduced reporting time by **40%** through end-to-end data centralization and automation.
- Implemented real-time KPI monitoring with React and Highcharts, improving incident response time by **25%**.

CICESE-UAT

Tepic, Nayarit

Full Stack Intern

February 2024 - August 2024

- Developed full stack internal web applications with **Vue.js** on the frontend and **Node.js** on the backend, including REST API design and **MySQL** database management.
- Built an interactive 360° virtual tour platform end-to-end — from database to interface — delivered production-ready.
- Designed and managed MySQL databases supporting internal tools used by research teams.
- Worked directly from mockups and written specs as the single source of truth for each delivery.

TECHNICAL SKILLS

- Frontend:** React, Next.js, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Highcharts
- Backend:** Node.js, Express, PHP
- Databases:** SQL Server, MySQL, MongoDB
- APIs:** REST API design and consumption
- Tools:** Git, GitHub, Docker, Firebase
- Methodologies:** Scrum / Agile
- AI:** AI integration in workflow (Claude, Cursor), AI-assisted automation

SOFT SKILLS

- Autonomy to move forward from designs and written requirements without constant supervision
- Collaboration with design, marketing, and non-technical stakeholders
- Attention to detail in faithful UI/UX implementation
- Problem-solving in real production environments

EDUCATION

INSTITUTO TECNOLÓGICO DE TEPIC

Tepic, Nayarit

B.S. in Computer Systems Engineering

2019 - 2024

LANGUAGES

- Spanish — Native
- English — Professional Proficiency (C1)
