PROFESSIONAL SUMMARY

Frontend developer with experience in React, Next.js and TypeScript, focused on building high-performance interfaces translated from Figma designs. I have delivered production-ready operational tools with measurable impact on business teams. I integrate AI into my daily workflow to accelerate development and improve delivery quality.

EXPERIENCE

AUTOSISTEMAS DE TORREÓN

Tepic, Nayarit

Frontend Developer

August 2024 - February 2026

- Built administrative interfaces with **React** for operations teams, including dashboards and real-time monitoring systems used daily in production.
- Implemented complex data visualizations with **Highcharts**, translating business requirements into functional interfaces.
- Reduced reporting time by **40%** through automation and data centralization.
- Automated Excel-to-database workflows, saving **5–7 hours per week** for the operations team.
- Improved incident response time by **25%** through real-time KPI monitoring.

CICESE-UAT

Tepic, Nayarit

Frontend Intern

February 2024 - August 2024

- Developed internal web applications with **Vue.js** for data visualization, consuming REST APIs from the backend.
- Built an interactive virtual tour platform with **360°** images, delivered production-ready.
- Designed and managed **MySQL** databases supporting internal tools.
- Worked directly from mockups and written specs as the single source of truth for each delivery.

TECHNICAL SKILLS

- **Frontend:** React, Next.js, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Highcharts, REST API consumption
- **Backend:** Node.js, JavaScript, TypeScript, PHP
- **Databases:** SQL Server, MySQL, MongoDB
- **Design:** Figma
- **Tools:** Git, GitHub, Docker, Firebase, Scrum
- **AI:** AI integration in workflow (Claude, Cursor), AI-assisted automation

SOFT SKILLS

- Autonomy to move forward from designs and written requirements without constant supervision
- Proactive proposal of technical and stack improvements
- Attention to detail in faithful UI/UX implementation

EDUCATION

INSTITUTO TECNOLÓGICO DE TEPIC

Tepic, Nayarit

B.S. in Computer Systems Engineering

2019 - 2024

Graduated with the highest GPA of the graduating class | GPA: 93.49

LANGUAGES

- Spanish — Native
- English — Professional Proficiency (C1)
